Sampler - very important:

The Sampler is to see like an additional musician. The Samplersignal has to be on PA and also on all (!) Monitorways.

The Samples are Rhythm Samples, the BassDrum from the Drumset should be louder than the Bassdrumsignal from the Sampler, not too much low-frequencies on the sampler

Razzmattazz needs:

-) 4 Monitorways
-) 3 microphones, Mic2 with cable = Vocals Tom Schaupp – NOT WIRELESS !!
-) (others can be wireless, but don't have to)
-) 4 wedges, 2 for Tom Schaupp (Voc + Git 1), 1 for Bassplayer, 1 for Git 2 Player, Drummer
Bad Mike doesn't need a wedge – just a signal to the Submixer for his InEar-Headphone
-) 1 room to chill out
-) 1 partner to contact for any questions

Razzmattazz brings:

-) Submixer
-) In Ear-Phones
-) IPad
-) Teleprompter

-) Voice TC Helicon Voiceprocessor for Tom Schaupp
-) Videocable from iPad to Teleprompter
-) and a maximum of Rock'n Roll
